### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification: on page 1 immediately a line after sub-heading "*Technical Field*",

The following is inserted: --This application is a 371 of PCT/JP00/00908 filed on 02/17/2000.--.

Claim 1 line 5, ":" after "therein" was replaced with --;--,

line 9, ":" after "port" was replaced with --;--.

### REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

In view that, each of the independent claims requires "*preparing a skin layer formed of a bag shape, said skin layer having at least a porous part and an opening for supplying a granular or fragmental filler therein ... setting said skin layer in a ... container*" and in light of Counsel's argument set forth on page 6 full paragraph 1, the 35 USC 103 rejection (on pending method claims) which was made in a prior office action is withdrawn. In addition, while it is known in the art to prepare a skin layer in a formed bag, the bag having an opening, and then to set the skin layer in one of padding containers as illustrated in figures 6-7 of the JP 07290466 A, the prior art process (i.e. JP '466) injects a foamable urethane

composition instead of *"supplying a predetermined amount of said filler to the inside of said skin layer by the use of said airflow ..."* (emphasis added) as required in each of the independent claims. Moreover, there is also no suggestion in the JP '466 patent to use a porous skin layer and providing suction port.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
